

# Visualizing the Noosphere

## [The internet map](#)

This is perhaps the closest thing to what I imagine the noosphere "looks like". I thought this site had gone under because I couldn't find it for the longest time (yeah yeah my fault for just googling every time I wanted to visit instead of putting down the address). The search function unfortunately doesn't seem to work though.

I know I've been a downer the last week or so. Honestly I don't feel any better but I want to think of something good that's happened lately. I guess I did pretty good on my latest drawing, and I'll try to keep improving it. It comes the closest to how I see the yinrih in my head. The neck and shoulders are parts of the anatomy I don't have set in stone. That's one of the reasons why the bachelor's mantle still isn't canon.
